

TABLE 2. General Statistics, by County and Type of Operation: 1963 and 1958

Industry code industry, county and type of operation	1963											1958			
	Establishment s		All employees		Production development and exploration			Value added in mining (\$1,000)	Cost of supplies, etc., and machiner y installed	Value of shipment and receipts (\$1,000)	Net pro duction of anthracite (\$1,000 short tons)	Capital expenditures (\$1,000)	All employees (number)	Value added in mining (\$1,000)	
	Total (numb er)	With 100 employees or more	Total (number)	Payroll (\$1,000)	Total (number)	Man hours (1,000)	Wages (\$1,000)								
11 ----- ANTHRACITE MINING, United States (Pennsylvania) total	1,06	102	11,786	58,835	10,324	19,544	49,889	120,54	131,082	236,511	18,388	15,111	122,813	164,489

11151 Other combinations	6														
Nonproducing establishments	5														

Note: See appendix A for an explanation of column captions.

Represents the clean-coal equivalent of all coal mined, based on the location of the mine.

Includes data for central offices and related facilities in New York State.

Service companies were permitted to prepare one report for all mining services performed. The totals shown for number of establishments in this table, and all figures shown for number of establishments in other tables of this report, are the counts of these reports. However, these reports contained data for the total receipts for services, total employment, and tonnage of raw coal mined by county. All other county information for these industries in this table was obtained by allocating the totals reported for each establishment on the basis of the reported county data. The number of establishments shown by county represents the number of operations in separate counties.

Coal mined by the Anthracite Mining Service Industry is included in the production shown for the Anthracite Industry.

Represents establishments in the Anthracite Mining Industry and the Anthracite Mining Services Industry.

Represents Berks, Lancaster, Lebanon, Northampton (1958 only), Snyder, Sullivan, Susquehanna (1958 only), and Wayne Counties.

Includes data for separately reported central offices and related facilities. These are not distributed by detailed types of operation.

Figures for nonproducing establishments are included with those for producing mechanical cleaning plants.

For 1963, represents 8 strip-nit and culm bank operations; for 1958, represents 3 combination strip-nit and underground operations; 2 underground and culm bank operations; and 2 strip-pit, underground, and culm bank operations.

¹⁰For 1963. represents 6 strip-pit and culm bank operations; 1 underground and culm bank operation; and 2 strip-pit, underground, and culm bank operations; for 1958. represents 10 combination strip-pit and underground operations; 2 strip-pit and culm bank operations; 2 underground and culm bank operations; and 2 strip-pit, underground, and culm bank operations.

¹¹Represents cleaning by wet washing or pneumatic methods (breakers and washeries).

¹²Not shown since the cost of supplies, purchased fuels and electric energy, contract work, and purchased machinery installed exceeds capital expenditures.
